Reliable Prevention. Rapid Solutions.

For over 60 years, S.A. Comunale's fully licensed experts have performed a full range of plumbing services, including gas line fusing and medical gas system installation.

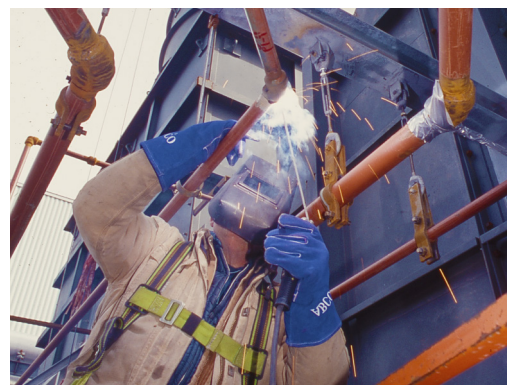

Whether clients need an entire plumbing system for their facility, or a crew to excavate the soil for a new plumbing installation, our licensed journeyman plumbers know how to get the job done—and done right. They're well versed in both local and international plumbing codes, which means everything is done by the book. Our plumbers undergo rigorous training, testing, and continuing education so they remain updated on current trends, technology, and techniques.

Identify Problems Quickly. With Proactive Preventive Maintenance.

Our plumbing experts can check a plumbing line's location and condition for effective preventive maintenance, as well as rapid problem identification and resolution. When obstructions do occur, experts will clear the system quickly and get it flowing smoothly again. S.A. Comunale's goal is always the same—to service, maintain, and help ensure the reliability of a facility's plumbing systems.
